

Greeting Gov. CUOMO,

As director/founder of a REENTRY & Transitional Program [LPS/LIFE Progressive Services Group Inc] located here in the Empire State of New York. Thank you for allowing the HALT bill to grab your attention. We all know the damage that occurs to another human being under such barbaric conditions. Then wanting to send them on their merry way on parole supervision, but broken and confused once released into a society who has No empathy or compassion for these releases back into the community.

Without service to address their brokenness. You have the power to look at it from a human aspect, not as Punishment for correction which never seems to happen.

Strengthen the transparency rules in order to protect the most vulnerable who are subject to be targeted by overzealous staff.

Thank you,  
Ken Bright,
